PROFILE

Passionate and fast learning developer with five years of work experience gathered in a German web agency based in Berlin, further backed by side-projects. Currently studying Webdesign and -development at SAE Leipzig.

RELEVANT EXPERIENCE

Frontend Developer, Digital H *Remote*

FEBRUARY 2019 - PRESENT

- Designed, built and maintained websites using Angular, PHP and Python
- Improved legacy sites built in WordPress and Python
- Built and integrated databases for web apps using PostgreSQL, Elasticsearch and Firestore
- Submitted and reviewed pull requests using Bitbucket and Github
- Sought out client feedback to guide independent projects

Internship Frontend Developer, three-2-one *Krefeld, NRW, Germany*

JUNE 2017 - JULY 2017

- Participated in an active SDLC by contributing code in HTML, CSS and JavaScript

EDUCATION

Webdevelopment and -design, SAE-Institute *Leipzig, Saxony, Germany*

SEPTEMBER 2021 - PRESENT

- Courses on basic HTML, SCSS, TypeScript, PHP and database-related logic
- Design fundamentals

CS, Heinrich-Heine Universität Düsseldorf *Düsseldorf, NRW, Germany*

OCTOBER 2018 - OCTOBER 2020

- Courses on basic Java, Python, Assembly, OOP and concepts of coding
- Simpler algorithms used in bio-informatics

A-Level/ Highschool Diploma, Berufskolleg Uerdingen *Düsseldorf, NRW, Germany*

JUNE 2015 - JULY 2018

- Focus on CS and mathematics
- Introduction to (object oriented and web) development

TOOLS, LANGUAGES AND LIBRARIES

- HTML, CSS, SCSS, TailwindCSS
- JavaScript, TypeScript, React, Angular, Node.js, Next.js, Nest.js
- Python, Flask, PHP
- SQL, MySQL, PostgreSQL, Firestore, Elasticsearch
- Git, Github, GCP, IntelliJ IDEA, Asana, Jira

SKILLS

Screendesigns *Figma, XD*

- Entire process from conception and wireframing to polished design
- Special attention to responsivity und accessibility

Website creation *HTML, (S)CSS, JS, Angular*

- Creating websites based on designs with the help of Libraries (e.g. Tailwind, React, etc.)

Building and integrating APIs *Node.js, Next.js, Nest.js*

- Integration of APIs to support dynamic content (e.g. data from a CMS)

Database design *MySQL, PostgreSQL, MongoDB, Elasticsearch, Firestore*

- Choosing of a suitable database depending on requirements

TEAMWORK

- Learned to work with a team through shared projects at work
- Fluent transition between independent work and teamwork through proper communication
- Helping out wherever I can

PROBLEM SOLVING

- Flexible and adapting to benefit the team
- Independent research to solve oncoming challenges

COMMUNICATION

- Almost always available (Discord, Zoom, Teams, etc.)
- Straight-forward and pragmatic
- Empathetic and non-violent
